During my first interview with Kent Healy I was instantly captivated by his grasp on life's meaning, its challenges, and what it means to take personal responsibility. A weekly reminder to my radio audience has always been that knowledge is power. To hear this same message stated so powerfully and articulately by Kent Healy was amazing. His ability to communicate with youth, parents, and grandparents was evident by my audience's response. As a result, I have asked him to return as a guest on my show many times.

Kent is always entertaining, energetic and informative. He is one of the few guests I have invited back repeatedly, because of the consistency and quality of his information, his professionalism, and his personality.

Kent has immense passion to help others, a desire to learn and explore, an ability to listen and understand what others are saying, and a true gift of being able to express himself, in all media venues, in a way that appeals to all ages and audiences. I believe these qualities make him an excellent guest speaker for your event.

Take Care of Your Health and Your Environment,
