

Audio Programs

No time to read? Don't like to read? No need to worry, "Cool Stuff" Media, Inc. has you covered again.

This is something we're really excited about. Kent and Kyle have developed new material and recorded their voices so you can get the latest information directly from them. As young people, we know how difficult it can be to find the time to read—and for that matter, just stay focused. Our audio programs address both of these issues. They were created for those people who are always on the go and those of us who have a short attention span. We also know that people learn better using certain techniques. If you're an audio-based learner, this is perfect way to learn these crucial skills of life.

GETTING RESULTS: Our audio programs are also interactive. Listening to someone talk can be helpful, but to get the most out of something, you must be directly involved. To do this, we have developed a workbook—or a Journal, as we like to call it. Each program comes with a free e-journal to ensure you get the results you want. **CONTACT US:** If you would like to order one of our audio programs or have any questions, please contact us at: sales@coolstuffmedia.com

OUR FIRST AUDIO PROGRAM: Our first audio program is called, "Conquer — The Ultimate Life Take Over." This is a 2-day (2 disc) audio program on how to turn fear in confidence and success. Check it out below: To learn more about this program, [click here](#). This program retails for \$19.95, but as an online special, we have it available for you at only \$11.95. To order this program click on the link above or please contact us at:
